

Professional IT Support at a Flat Rate

Uthanda offers fast, affordable and professional IT support for the SME market - between 10 and 50 users.

We've bundled our revolutionary Flat Rate IT Support with our Pro-active Network Monitoring Service - providing you with experienced IT support to maintain and protect your network 24 hours a day, 7 days a week and 365 days a year!

Uthanda is a Microsoft Partner and introduces clients to new technologies that save money each year. We pro-actively manage and monitor your network to reduce the need for costly reactive measures after problems occur.

As an added bonus, if you contact us now, you'll be eligible to receive our most popular service at no additional charge - Vendor Management, where we become the single point of contact for all of your vendor issues. *Free yourself to focus on running your business - not your vendors.*

Contact us now for a no obligation assessment. Please email us at sales@uthanda.co.za or give Colin a call on 072 662 4365.

Uthanda ICT uses remote monitoring and remote IT support to maintain your network 24 hours a day. Our clients have access to after hours IT support at no extra cost.
